JOHN DWIGHT & CO'S
SODA SALÆRATUS
MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 42 East water-st.
The attention of the public is called to this article as being superior to Pearlash Saleratus in its effect—giving cookery a more delicate appearance and flavor; and also at more wholesome—Soda being more congenial to the human system than Potash. It is more economical than Pearlash Saleratus—a less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.
Also may be found, John Dwight & Co's
Washing & Cleansing Powders,
which will be found, on trial, a very superior article, saving much labor of washing Clothes, &c. It will soften hard water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other iron works leaving the iron perfectly dry, and not liable to rust.
Directions for use are printed on each package.

VOLUME VIII. MILWAUKEE DAILY SENTINEL. NEW SERIES.

LETTER FROM Mr. WEED.--NO. 26.

Editorial Correspondence of the Albany Evening Journal.

Rome, April 7, 1852.

The solemnities of Holy Week draw Visitors to Rome from all parts of the world. These solemnities commenced with Palm Sunday. We went early to St. Peter's, where seats were prepared for several hundred privileged Ladies and where several thousand gentlemen were permitted to stand.

The Pope was borne in on the shoulders of twelve Disciples, preceded by a Procession of Cardinals, Bishops Priests, &c. &c. After appropriate services, which included the elevation of the Host, Palm-leaves were blessed and delivered to the dignitaries of the Church. The services occupied three hours and were highly impressive.

In the afternoon of Sunday I was presented by Mr. Cass to His Holiness. We went by appointment at 4 o'clock. Mrs. Middleton, of South Carolina, Mrs. Rutherford, of New Jersey and Gen. Stuart, of Baltimore, were presented at the same time. Mrs. Middleton is the daughter of a Roman Officer who died recently and who was for a long time Governor of the Castle of St. Angelo. She had a Petition to present asking for the continuation of a Pension to her Mother. This led to a conversation which displayed the Pope in all his benevolence of heart. I was gratified with the opportunity thus offered to see his fine, expressive countenance lighted up, and to hear him speaking the language of kindness and affection which have characterized his whole life.

Mr. Cass told me that Mrs. Reed, of Baltimore, whom he presented two or three weeks ago, was interested in a Church nearly finished in her native City, and asked of His Holiness a Picture. This request was readily granted, and a valuable Painting goes to Baltimore.

Thursday, April 8.

We were early at St. Peter's this morning.—The services of the day commenced in the Sistine Chapel, belonging to the Vatican and adjoining St. Peter's. Long before 9 o'clock, several hundred Ladies, all dressed in Black, with Black Veils thrown over their otherwise uncovered heads, were seated in the Chapel. Leaving the Ladies here, I returned to the Bridge over the Tiber at the Castle of St. Angelo, to see the World of Rome wend its way to St. Peter's. It was really a gorgeous scene. A long line of gay Carriages, broken occasionally by detachments of Troops going in the same direction, along with a dense mass of Pedestrians, kept me interested for half an hour. During this time I counted the richly ornamented Carriages of forty Cardinals, all drawn by beautiful black horses, each with 3 out-riders in splendid livery.

After celebrating High Mass in the Chapel, the Pope repairs to the Balcony of St. Peter's, where he gives his Benediction to the assembled multitude. This was a truly imposing ceremony. The immense area in front of St. Peter's was thronged. A solemn stillness pervaded the multitude. The Pope rose and in an audible voice pronounced his Benediction to many thousand prostrate believers.

This over, there was a simultaneous rush for the door of St. Peter's, through which three solid columns of human beings were passing for 15 or 20 minutes: and though many thousands entered, St. Peter's was far from being full.

Here the ceremony was deeply interesting, for here the Pope, in imitation of his Divine Master, washed the feet of his Disciples. These Disciples were twelve Missionary Priests who had been abroad teaching the Scriptures. They were robed in white, and seated at the right of the Altar upon an elevated bench. Having tied on a white Apron, the Pope proceeded to the discharge of this duty, accompanied by Cardinals and Priests, with water and napkins. The Pope knelt in front of each Disciple, who placed their feet (one foot) in a silver ewer, over which water was poured by an attendant. The Pope then wiped and kissed the foot of each in succession, the last of which was that of a Colored Man. Each Disciple kissed the Pope's hand as he was rising. They were all deeply affected, as, indeed, were most of the auditors, for there was such a touching humility in the manner of the Pope, that the lesson this ceremony teaches could not fail to impress itself upon Christian hearts.

Long before this ceremony was over the crowd began to move back to the Vatican, where the "Last Supper" was spread, and where the Pope, again, in imitation of his Divine Master, performs the humble office of servitor. The rush was tremendous. Neither age nor sex were regarded. Indeed those who got into the current were swept along irresistibly, in imminent danger of being crushed or suffocated. Having been for more than four hours on our feet in the crowd, we dropt out and came to our Hotel for refreshments, intending to return to St. Peter's at 6 o'clock for the "Miserere," which is sung both there, and in the Sistine Chapel, with the finest effect in the latter place, but the crowd will be so great that we shall content ourselves with the Choir of St. Peter's.

8 o'clock P. M.—Immediately after Dinner we drove again to St. Peter's to hear the "Miserere." On the way we met several Processions of Priests, Monks and Pilgrims, carrying a veiled Image of the Saviour. The Monks were closely masked The Pilgrims looked weary and famished. In each Procession was a Choir, whose chaunt was very touching.

Thousands had preceded us at St. Peter's, but we made our way through the masses to the gate of the Chapel in which the Miserere was to be performed, and there we stood wedged in by a compact army for three-quarters of an hour. But we could not catch the faintest notes of this highly effective Sacred Music, for though all endeavored to be silent, there was more or less noise.

This over, we repaired to the Pauline Chapel of the Vatican, which was brilliantly lighted, and where the Pope was engaged in appropriate services over the relics of the Holy Sepulchre which are deposited here. And here we passed through another crushing ordeal, for though we left many thousands of People in St. Peter's, we found other thousands in the Vatican. The good Pope looked weary enough, but the duties of the day were not yet over, for he left this Chapel to attend to the cleansing of the Altar in St. Peter's. This, however, closed our day—a day replete with solemn interest. The ceremonies we witnessed were well calculated to produce powerful emotions in the heart, and to exert a salutary influence upon the conduct of those who believe that the Faith of the Apostles has been preserved and transmitted by this Church; that Pius Ninth is the successor of St. Peter; and that the Religion of our Saviour is taught by his Priesthood—a Priesthood which has so far vindicated Revelation as to have carried the Cross and taught the Scriptures every where and to all People.

Friday.—There are Religious Ceremonies during most of the time of Holy week in nearly all of the Two Hundred and Sixty-five Churches of Rome. We have just returned from St. Peter's where the Pope came with a Procession of Cardinals to the adoration of Holy Relics. Returning we stopped at two Churches in which the Miserere was being sung, and where there was washing of the feet of Pilgrims.

During the day we visited the Church of Scala Santa, where Penitents and Pilgrims ascend a long flight of steps on their knees. These steps are supposed to be the same that the Saviour ascended when he was taken by Pilate to the Judgment Hall.

Sunday, April 11.

Rome rejoices to-day in a risen Saviour. The Church, having passed the season of fasts, and laid aside her Sables, assumes her gayest Vestments.—All is life and animation. Numerous Religious Processions and Ceremonies took place at break of day. We repaired to St. Peter's at 8 o'clock, where a great multitude had already assembled. Soon after 9 o'clock the Pope's Procession, preceded by the Pope's Guard, entered St. Peter's.—It was far more imposing than those which preceded it. There was a larger number of Ambassadors, Noblemen, Military Officers, Bishops, Archbishops, Cardinals and other Dignitaries, and they were all more richly decorated. The services which followed, occupying more than 2 hours, were deeply impressive. These over, every body rushed to the great Square in front of St. Peter's to receive, from its Balcony, the Pope's Benediction. For half an hour, St. Peter's discharged, thro' its four side doors, a dense mass of human beings, numbering, I judge, from thirty-five to forty thousand.

These, added to more than as many more previously in front of the Church, along with five or six thousand troops, swelled the aggregate to near an hundred thousand! These all stood, under a bright sun and cloudless atmosphere, with eyes directed to the Balcony until His Holiness appeared. Then all was hushed to breathless silence, and all kneelt; and the scene, at this moment, was more solemn and sublime than can be described. The Blessing over, the various Bands commenced playing, and the various Regiments moved on. All was now full of life and spirit.—Carriages rattled off, but this was no easy task.—Ours, though Dragoons were busy in preventing confusion and opening avenues, was over an hour getting out of the Square. The streets, on our way to our Hotel, were lined, like Broadway on the 4th of July, with people decked in their gayest attire. Thus closes the morning of Easter Sunday. We go in the evening to see St. Peter's Illuminated.

9 o'clock, P. M.—We have seen St. Peter's Illuminated! It was a sight that richly compensates for a long journey to Rome. The effect is truly magnificent—much more so than can be imagined from all the descriptions or views we had seen. In the comparison, all that I had ever witnessed in the way of Illuminations was tame and common-place.

We drove to the Church at 7 o'clock. The lighting of nine thousand lamps took but ten minutes. These illuminated St. Peter's from its base to the brass ball on the top of the Dome, together with the Corridors on either side of the Square. This showed the Church to great advantage. But brilliant as this was, that which succeeded was far more so. At 8 o'clock, precisely, and as the great Bell of St. Peter's told the hour, instantaneously the "Golden Illumination" occurred. Thousands of additional and even more radiant lights appeared as by magic. And now the scene was one of gorgeous beauty. This mighty Cathedral was in a blaze of glorious light. Several Bands were all the while discoursing soft, mellow music around the Square, in which were from fifty to seventy-five thousand spectators. Having feasted our eyes on this beautiful scene we drove to the Pincian-Hill for the purpose of obtaining another and more distant view. This too, was beautifully grand. And having devoted two hours to the Illumination, we returned deeply impressed with recollections of a spectacle of unsurpassed magnificence.

Many thousand persons are employed in this Illumination, many of whom are exposed to imminent dangers. Those who ascend to the Ball and Cross at the top of the Dome receive the Sacrament and take leave of their friends.

There was an unpleasant occurrence in front of St. Peter's yesterday. When the Pope was about to pronounce the Benediction, a French Officer ordered Mr. Jones, of New York, to take off his hat. Mr. J. refused, and the Officer knocked it off, for which he struck the Officer with his cane. The Officer struck back with his sword, cutting Mr. J. slightly in the hand, who returned another blow with his cane. By this time he was taken in charge by troops and carried to prison. Information was taken to Mr. Cass, our Minister, who immediately went to the authorities, and after, two or three hours delay, procured his release.

Rufus King, Wm. H. Watson & John. S. Fillmore PROPRIETORS.

UNDER THE NAME AND FIRM OF

RUFUS KING & CO.

Misrepresentation.

The last number of the Elkhorn *Star*, free soil, contains the following statement:

At a caucus lately held by the whig members, to settle upon measures and principles upon which to call a National Whig Convention, they not only endorsed the measures of the compromise and the fugitive slave law in particular, but they also declared that they would not be pledged to the support of any nominee of that convention, unless he was *known* to be in favor of and firmly adhering to these measures. So the party is now fairly committed to the slave policy, and the whig party have become peculiarly the conservatives of the slave interest.

It is true, that these resolutions were at first voted down by the *Northern* members, upon which some eleven of the Southern members withdrew from the caucus, which had the effect to frighten the Northern members into a compliance, so that they passed resolutions which could not be passed with the aid of the eleven which had withdrawn, but after they had gone, they doubtless wished again to save the Union, which has been so often saved before, and concluded to reconsider—and the Union is saved again. Here 21 southern members controlled 46 who voted to lay on the table, and fairly bullied them into submission. We cannot longer dwell upon this subject at this time, but will give a full report of the proceedings of this dough-face convention next week, that our Whig friends may see what position they are made to occupy.

The statement is wrong in every respect, and is, we hope, a mistake on the part of the *Star*. It is wrong in in the following particulars:

The Whig members did not meet to "settle upon measures and principles," but merely to fix time and place for the Convention.

They neither endorsed the compromise measures in general, nor the fugitive law, or any other law, in particular.

They made no declaration as to their support of the nominee of the Nation Convention.

These resolutions were *not* "at first voted down by the Northern members"—simply because the Chairman, Senator Mangum, declared them out of order. On an appeal by Mr. Marshall, the Chair was sustained 46 to 21.

The Northern members were *not* frightened by the withdrawal of a few Southern men, and did *not* pass any such resolutions as the *Star* asserts that they did;—they did *not* reconsider their vote.

To prove that we are right, and our Walworth Co. cotemporary wrong, we refer to the record of the proceedings of the Caucus of the 20th—a record which the *Star* will publish of course, according to its promise given in the last sentence of the article which we quote above.

Congress.

On the 7th, some trifling matter in the way of a few millions of expenditure coming up, the following debate occured:

Mr. Stanton of Ky., said: I have no desire to discuss it.

Mr. Clingman—I have.

Mr. Stanton—Very well; after I yield the floor.

Mr. Clingman—I hope the gentleman will not move the previous question.

Mr. Stanton—I did intend to do so.

Mr. Stanly—I suggest the consideration of the subject be postponed until Monday, and let us now act on private bills.

Mr. Polk—Will the gentlemen say Wednesday?

Mr. Stanly—I would rather say Monday, *as we generally waste that day.*

Stanley's idea met with general concurrence.—He might have added Tuesday, Wednesday, Thursday, Friday and Saturday, and no one would have ventured to deny it.

☞ As the Delegation from New York City has not been chosen, we are somewhat curious to know how the *Free Democrat* ascertained that Mr. Fillmore has "secured" it.—*Sentinel* of the 14th.

A slight mistake. The meetings were called to hold between the hours of six and nine o'clock on the morning of the 13th.—*Commercial* of Saturday.

Exactly, and therefore the result of these meetings could not very well have been known in Milwaukee on the 12th, when the *Free Democrat* announced that Mr. Fillmore had "secured" the delegation.

☞ Representatives from the Great Western Railroad of Canada, the Rochester, Lockport and Niagara Falls Railroad, in New York, and of the Canadian and New York Niagara Falls Suspension Bridge Companies, convened lately at Niagara Falls, (Canada side) on business of much importance, which, it is understood, was arranged on a basis satisfactory to all interested. The Suspension Bridge will be commenced forthwith and completed simultaneously with the Great Western Railroad. It will be constructed in the most substantial manner.

Hotel at Madison.—For the benefit of numerous interested individuals in all parts of the State, we are happy to state, on reliable authority, that the new Hotel at Madison is decided upon, and will go forward at once. The following efficient organization of the company has been effected:

Edward Ilsley, President.
A. J. Ward, Secretary.
Simeon Mills, Treasurer.
L. J. Farwell, L. B. Vilas, and E. B. Dean, Jr., Executive Committee.

Cool.—The Loco Common Council of New York city is a body of infinite coolness. Recently some residents of Wooster St., petitioned for the privilege of removing, *at their own expense*, the mountains of filth, with which the street is filled. Whereupon the Aldermen refused, on the ground that such a course might be considered as reflecting upon the Street Commissioner! and then an Alderman gravely moved that the petitioners might remove it, if they deposited the earth in the corporation ground!

Insanity or Capt. Floyd.—Capt. Floyd, of the ocean steamer *Washington*, well known upon the lakes, was seized with insanity on the last trip out, and endeavored on one or two occasions, to run his ship ashore. Representations were made to the U. S. Consul at Southampton, and he was taken to an asylum. The Washington came home in charge of the first officer.

Information Wanted.—Julius Albrand, recently arrived in this city from the Grand Duchy of Mecklenberg, wishes to learn of the residence of his brother, Wm. Albrand. The latter was at heard of near Koshkonong, Jefferson County, in this State. Julius A. may be addressed to the care of F. W. Allerding, Milwaukee.

☞ Papers in this State, Illinois, and Iowa please copy.

N. Y. Delegates.—The Whig Convention of Fulton Co., chose 5 Scott delegates to the Distric Convention, on the 6th. Seneca Co. sent 5 Scott delegates to the Convention in the district of which it forms a part.

City Matters.

Firemen's Review.

The Semi-Annual Review of the Fire Department took place on Saturday, according to notice The several houses of the Companies had been put in their neatest trim, and were thrown open to visitors, a large number of whom, many of them ladies, availed themselves of the invitation to call and see the firemen at home. We doubt whether six such rooms for the purpose can be found in the West.

At 1½ P. M. the sun shining brightly, and the dust well laid—in some places a little too well—the Companies formed in line on Wisconsin St. and were reviewed by the Common Council, after which they moved in procession through various streets, with two bands of music, and accompanied by the Common Council, Fire Wardens, a detachment from the Sack Co., and Juvenile Hook & Ladder Co, which last stepped off as proudly as any part of the array.

As they passed our office, the numbers stood Hose Co. 18—Badger Hook No. 1, 28—Milwaukee Engine No. 34—Neptune No. 2, 57—Oregon No. 3, 52—Rough & Ready No. 4, 36—Ocean No. 5, 29—these numbers including the hose men of each company.

Arrived at Chesnut Street bridge the engines played first in line, and afterwards singly at a target, in each case exhibiting their efficiency to a vast crowd of spectators. Nos. 3, 4, and 5, only succeeded in getting aim at the target, and did first rate work, the first and last going a little ahead, doubtless from the fact that No 4 had very few of her regular men on duty. The Boston engines No. 1, and 2, put on such steam that they burst their hose at each attempt. If the rubber had held good, no one doubts that they would have rendered a good account of themselves.

The whole parade was in the highest degree creditable to the Firemen, and to the city which is proud to own them.

Mr. Lord's Lectures.

Mr. Lord will give the first of his three Lectures at Gardiner's Hall *this* evening. His subject is "Gustavus Adolphus, or the Thirty Years' War." It would be an impeachment of the good taste and appreciating judgment of our citizens, to doubt that they will eagerly avail themselves of this opportunity to hear one of the ablest Lecturers of the day. Tickets for the Course, admitting a lady and gentleman, $1.00, and single tickets 25 cents. We anticipate a large attendance this evening, and are quite confident that those who hear the first Lecture well make sure of hearing the whole Course.

A Favorable Allusion.—The Grant Co. *Herald* has recently published numerous articles inviting attention to the vast agricultural, as well as mineral, wealth of that region of country, and to the numerous outlets which it has, or soon will have, by Southern and Eastern routes, to market. In one of the last of these articles, we find the following:

Milwaukee, occupying an eligible position for commerce, is located on the Wisconsin side of Lake Michigan, near the center of the western shore, and is destined to be the custom-house recipient for the heavy products of the north-west, in spite of all rivals. This assertion may be coolly received received in some quarters; but when the projected Milwaukee and Mississippi Railroad is completed, (40 miles of which are now finished, and sixty miles more under contract) common-sense and a glance at the geographical position of the route, must convince any one that our conclusion is anything but chimerical. This great arterial trunk, extending from Milwaukee through an already densely populated region, will send forth branches in every feasible direction, to gather in and empty into Milwaukee the surplusage of nearly all the country lying north of 42½ degrees, including Wisconsin, Minnesota, Northern Iowa, and the new Indian purchase—than which no other regions of the great west can boast of receiving more than half the like emigration, during the past year or two, nor will likely for years to come.

Madison, the capital of the State, situated in the interior, and in the focus of a rich and healty agricultural region, will be the secondary central terminus for plank and railroad ingathering—the cargoes, freight and storage of which will flow into Milwaukee by way of the great trunk, for shipment to New York city.

So think, and justly, our Grant Co. friends.—Push on the railroad rapidly, and realize all that they say, and more.

The Demand for Cattle.—The great demand for cattle, and the high prices which they bring, is reason enough why every farmer should pay attention to stock-growing. California has so diminished the country of every thing with horns, as well as nearly every thing else, that any other demands for a few years, must go unsupplied. The abundance of good pastures and water with which Wisconsin is supplied, renders it undoubtedly one of the best States in the Union for this purpose; and it is equally well located in respects to facility for markets. At the present time any number of head might be shipped to Minnesota and disposed of at profitable prices, and already have the eastern counties commenced transporting their cattle down the Lakes, for the purpose of supporting the great beef-steak maw of the Gothamites. Some fifty head were recently brought into Milwaukee on the cars, and from thence shipped to New York. The same advantage will be extended to Western Wisconsin as soon as the Rail Road shall reach the Mississippi—a time not far distant.—*Potosi Rep.*

Refuses to Redeem.—The "Government stock" Bank, of Michigan, has refused to redeem some 10,000 of its bills sent back to it by the Metropolitan Bank of N. Y. City. The institution, it seems, is owned by parties in New York who have joined in the war upon the Metropolitan, and the latter takes summary vengeance. The State officers, in accordance with law, have taken possession of the Bank, and will proceed to sell the stocks. There can be no loss to holders, and the bills pass current as usual in Detroit.

History of Wisconsin.—The Mineral Point *Tribune* invites all persons who may have in their possession incidents of the history of localities in the State, or documents of value, to put themselves in communication with Gen'l WM. R. SMITH, of that village, in order to aid him in compiling the authorized Documentary History of Wisconsin.

Boston Art Union.—The association formed last year in Boston, with Edward Everett at its head, has closed its affairs. On the first of May the Directors resolved unanimously:

"That in consequence of the present state of public opinion in relation to Art-Unions, it is expedient to bring the affairs of the Institution to a close."

Statue of Washington.—The N. Y. Washington Monument Committee have entered into a contract with Messrs. Greenough and Brown, for a colossal equestrian statue of the Father of his Country, in bronze, to be placed in Union Square. It will take three years to complete the work.

Making Time.—Passengers can go now from Philadelphia to Albany in 9 hours! including all stops by the way. A traveller who tells his story to the *Evening Journal*, seems to be indignant about a detention in New York of an hour, included in the time. The running time on the Hudson River Railroad was 3 hours, 12 minutes—distance about 146 miles.

Rise of the Mississippi.—*Prairie du Chien partly under Water.*—We learn by a friend who has been on a visit to Prairie du Chien, and left there on Monday morning last, that the Mississippi is at a higher stage than a majority of the citizens ever knew it. That part of the town situated on the levee, and inhabited mostly by French is entirely surrounded by water; and the floors of many of the dwellings are under water; some of the families have left. Dousman's dwelling, situated on a mound, at some distance in the rear of this part of the town, is secure from the rise. The bridge over the slough between the old and new town is gone, and the embankment over which the road passes is much injured. The water is up to the street on which the Phœnix Hotel stands, and some of the floors of the dwellings on this street are under water, compelling families to vacate them for the present. Considerable damage has already been done to property.—*Grant Co Herald.*

The Whig Congressional Caucus.

A meeting was held on the 9th April, at which 70 members were present. It was agreed upon to adjourn to a later day. Mr. Marshal gave notice that he should introduce Compromise-Finality resolutions. The Chairman, (Mr. Mangum) stated that the subject was not now before the meeting, but that he deemed it due to the gentlemen present, and to his own honor, to state explicitly that he should be called on, by his understanding of the rules of the Senate, which had been adopted for the government of this meeting, and the usages of the Whig party, to rule out of order such resolutions, and he took this early time of stating the matter, that the meeting, if they did not approve of this decision, might call another gentleman to the chair.

No question was taken, and the Caucus adjourned to the 20th, on which day, according to the official Report in the Washington *Republic*, the following proceedings took place:

Adjourned Meeting,

An adjourned meeting of the Whig members of Congress was held in the Senate chamber, on Thursday evening, April 20th.

At a quarter before eight o'clock, Mr. Mangum took the chair.

The proceedings of the previous meeting were read.

Mr. Stanley, of North Carolina, offered the following resolution:

Resolved, That it be recommended that the Whig National Convention be held in the city of Baltimore, in the State of Maryland, on Wednesday, the 16th day of June next, for the purpose of nominating candidates for the Presidency and Vice Pre-idency of the United States.

Mr. Marshall, of Kentucky, then offered the following as a substitute for that by Mr. Stanly:

Whereas, The determination of the time and place for holding a National Whig Convention has been referred to the Whigs of Congress, the Whig members of the Senate and House of Representatives, having assembled in Convention, with the explicit understanding that they regard the series of acts known as the Adjustment Measures, as forming in their mutual dependence and connection, a system of compromise the most conciliatory, and the best for the entire country that could be obtained from conflicting sectional interests and opinions; and that, therefore, they ought to be adhered to and carried into faithful execution, as a final settlement in principle and substance, of the dangerous and exciting subjects which they embrace, and do unite on the basis as well as upon the long established principles of the Whig party, do hereby recommend the —— day of —— and the city of ——, as the time and place for holding the National Whig Convention, for the choice of Whig candidates for the Presidency and Vice-Presidency, respectively.

The Chair then decided that the resolution was out of order, and contrary to the established usage of the Senate. But as a substantive resolution, it was to be considered and decided by the meeting, whether it would be acted on after the transaction of business, upon which alone the meeting had assembled, viz:—That of recommending the time and place for holding the Whig National Convention.

From this decision Mr. Marshall took an appeal, and after considerable debate, in which great latitude was allowed, the motion was put—"Shall the decision of the chair stand as the judgment of the meeting?" and the question was decided in the affirmative by yeas, 46; nays, 21, as follows:—

Ayes and Nays on the appeal of Hon. Humphrey Marshall from the decision of the chair:—

Senate.—*Ayes.*—Messrs. J. H. Clarke, John Davis, H. Fish, J. W. Miller, Truman Smith, P. Spruance, J. R. Underwood, and B. F. Wade.

Nays.—Messrs. Bissett Brooke, James Cooper, and Jackson Morton.

House.—*Ayes.*—Messrs. Allison, Barrere, Bowne, Brenton, Briggs, Campbell, Chandler, Cullom, Fowler, Goodenow, Goodrich, Grey, Haskell, Hebard, Hosford, Howe, T. W. Howe, Hunter, King, Kenns, Meacham, Moore, Morehead, Parker, Penniman, Porter, Sackett, Schoolcraft, Scudder, Stanley, Stanton, Stevens, Taylor, Walbridge, Ward, Washburn, Wells, White, of (Ky.,) Williams.

Noes.—Messrs. Appleton, James Brooks, E. C. Cabell, Clingman, Dockery, Ewing, Gentry, Haws, Haven, Landry, H. Marshall, Martin, Moore, Outlaw, Schermerhorn, Strother, Williams.

Mr. Gentry, of Tennessee, then offered the following in addition or amendment, to the resolution of Mr. Stanly:—

Resolved, That the Whig members of Congress in thus recommending a time and place for the National Whig Convention to assemble are not to be understood as pledging themselves to support the nominees of said convention, except upon the condition that the persons then and there nominated as candidates for President and Vice President shall be publicly and unequivocally pledged to regard the series of measures known as the Compromise measures as a final settlement of the dangerous questions which they embraced, and to maintain that settlement inviolate.

The Chair decided the resolution, or amendment, of Mr. Gentry to be out of order, unless as a substantive proposition. As such the Chair would receive it.

From this decision of the Chair, an appeal was taken, and the opinion of the Chair was sustained without division.

The resolution of Mr. Stanly then coming up, Mr. Campbell, of Ohio, moved to strike out Baltimore, and insert Cincinnati, which was negatived. A motion, by the same gentlemen, to insert Louisville, was also lost.

A motion was then made to strike out Baltimore, and insert Pittsburg, which motion was then negatived.

Mr. Chandler of Pennsylvania, moved to strike out Baltimore, and insert Philadelphia, which motion was negatived.

General Cullom, of Tennessee, then gave notice that if Mr. Stanly's resolution should have been disposed of, he would renew the resolutions offered by the gentleman from Ky., (Mr. Marshall) and the gentleman from Tenn., (Mr. Gentry) if they would remain.

The question on Mr. Stanly's resolution was then put, and decided in the affirmative, without a division.

Gen. Cullom, of Tenn. then gave notice that, as the particular friends of the resolutions which had been ruled out of order, in connection with the resolution of Mr. Stanly, where not present, he did not feel called to present the resolution of which he had given previous notice.

It was *Resolved* that the chairman of the meeting have authority to re-convene this meeting should circumstances, in his opinion, render necessary such a course.

It was ordered that the Chairman of the meeting cause the resolution recommending the time and place for holding the Whig National Convention, to be inserted in the Whig newspapers of this District, signed by himself and countersigned by the Secretaries; and then at a quarter before twelve, the meeting adjourned.

Particulars of the Frightful Rail Road Accident on the Rome and Watertown Rail Road.

A letter from the office of the *Northern Journal*, at Watertown, gives the following particulars of the shocking Rail Road accident that occurred at Pierrpont Manor on the evening of the 5th instant:—

It appears that a company of 9 persons—two married men with their wives, and five young ladies—thought to amuse themselves by an evening's ride from the manor to Sandy Creek, on a hand-car, after, as they supposed, the last regular train for the day had passed. After running about half-a-mile, and as they were turning a curve in the road, they were met by a locomotive and tender, which was backing up from the creek to the manor.

The unfortunate occupants of the hand-car had but a moment's warning, and that moment served only to paralyze the ladies with fear. One of the men seized his wife, and the other one his wife and one of the young ladies, and sprang from the car. The other four were on the car when the collision took place; three of them were thrown under the locomotive and crushed to death, and the other was found mortally wounded by a blow which she received in the forehead. The awfully mangled remains of the bodies were picked up and brought back to the manor to those friends who had joyously parted with them but a few moments before; but the wail of woe went up where the sounds of joy had been.

As near as we can ascertain them this morning, the names of the young ladies killed were:—Miss Wright, of Oswego, and Miss Williamson, Miss Andrus of Pierpont Manor.

We cannot say that any particular blame can be attached to the engineer, Mr. D. Smith, although he regrets not having raised a light sooner as he should have done; but as they were coming in Watertown, he deferred putting up a light until they should reach the manor.

The party were warned against going upon the track by the station master, as some special train or locomotive might be upon the road, which most unfortunately and unexpectedly proved to be the case.

☞ The Store and Warehouse at Ray's Landing, on the Mississippi, in this county, was destroyed by fire on the night of the 6th instant. Loss estimated at two or three thousand dollars—partly covered by insurance. Cause of the fire unknown.—*Grant Co Herald.*

Land Grants.—A bill has passed the U. S. Senate making grants of land to the Milwaukee and Mississippi Railroad, and also to the Rock River Valley Union Railroad. The papers ascribe much credit to our Senator Walker for procuring the passage of this bill. What will the Land Reformers say?—*Madison Democrat.*

Arrival of the Canada.

Halifax, May 12.

The Canada arrived at 10 o'clock last evening bringing dates from Liverpool to the 1st inst., she had 51 passengers, and experienced strong easterly gales most of the passage.

The Atlantic, on the 24th ult., run aground in a dense fog near the pier of Killmore, but got off without loss, having been aground about 7 hours, and arrived at Liverpool on the 29th.

The Chancellor has presented his budget, which is satisfactory. He estimates a surplus of about 300,000 pounds.

Liverpool Corn Market.—Notwithstanding a large fleet of vessels have entered the port since Monday, not any have brought grain, and only 1600 bbls., flour from the U. S.

The sudden change of the weather from long continued drouth to frequent showers, has rendered the market dull.

A slight concession has been made upon prices of the previous week, to effect sales.

Indian Corn did not share in the decline.

Baring & Sons' Circular.—Quotations are one penny decline in wheat for 60 lbs and 3d per bbl. in U. S. flour.

Provisions.—Beef quoted at an ddrance of from 5 cents to 10 cents per tierce, with sales of 4,000 tierces.

Fatal Case of Shooting.

Pittsburg, Saturday, May 8.

A lad 14 years old, named Walter, son of John H. Richardson, residing at Lawrenceville, was yesterday killed by his step-mother, under the following circumstances: He was uncommonly disobedient, and his father advised his step-mother to pretend to shoot him, for the purpose of intimidation. A gun had been loaded the previous evening, unknown to the step-mother, and she, in following the father's suggestion, shot the boy in the thigh and abdomen, causing instant death.

Washington, May 11.

Senate.—After presentation of a few petitions, Mr. Mallory moved to postpone morning business, and take up the joint resolution authorizing the construction of a war steamers for harbor defence Motion carried.

House.—Immediately after the opening business, the house resumed consideration of the resolution for a recess for the purpose of having the hall cleaned for the summer session.

Utica, Saturday, May 8.

A fire broke out this morning in the extensive pump and pail factory at Mahon & Dixon, near the junction of Whitesboro and Fayette-streets, West Utica. The building, together with nearly all its contents, was entirely destroyed. The Washington fire engine house and Mr. Robert's meat market, immediately adjacent, were considerable injured. Loss estimated at 10,000.

Baltimore, May 9.

The Southern Mail came thought to-night from New Orleans.

Dates from Yucatan to the 27th March have been received in New Orleans. Great fears are entertained at Yucatan with regard to Gen. Lavenga's command, consisting of six hundred men, which left some time ago, and had not been heard from since. It is thought he may have fallen into an ambuscade, and his whole force been cut off. The Indian War is far from being ended.

The Railroad Accident at Niles, Michigan.

A despatch from Niles, dated the 12th says:

While the special train from the West, moved with immigrants, mostly from Germany, was standing upon the track at this place, yesterday noon, a freight train, loaded with iron, supposing the track to be clear, came around the curve at the usual speed. It being down grade, and the track wet with rain, it was impossible to check their speed, and they plunged into them, smashing the first car into fragments, the second very badly broken and thrown completely into the air by the shock, landing on its side, throwing the occupants of the two cars in every direction, dashing out the brains of Gusavit Wise, a German from Prussia, Mary Kiggins killed, and her two little sons slightly bruised; has a husband in Wisconsin awaiting her arrival at Milwaukee. Martin; Elizabeth Jacobs from Lutzenburg, Germany, killed; Thomas Hamilton, Irish, injured; his father killed by a blow on the head.

The whole number wounded was thirty-five.

Germany and the United States.—A Bluefeld, in Northern Germany, a book is just published with the following title: "The North American Free State, Wisconsin, in its Physical Social and Political Form, with a complete Account of all its branches of Trade, Manufactures, Industry and Business. Such books, says the Galena *Advertiser*, are multiplying rapidly in Europe, and effect emigration powerfully.

There are 163,000 Germans in Wisconsin. The whole number in the county estimated at five, of whom nine-tenths are in the free States.

☞ The Buffalo Express of Tuesday says:

The Ward Caucuses held last evening, resulted in the choice of Fillmore delegates to the County Convention from all the Wards. This gives the County Convention to the friends of Mr. Fillmore, by a decided majority. Under the circumstances, no different result could reasonably have been expected.

☞ Mr. Clingman, of N. C., was to publish a letter in the Washington papers of Tuesday, in reply to the Louisville Journal. He states that the Fugitive Slave Law is the only act of the Compromise which is now capable of being repealed; and that he voted for that measure, and is perfectly consistent in now desiring its finality as a test. He considers the recent address of the seceding Whigs as worthless, because lacking in point.

Copper Smelting.—The Waterbury and Detroit Copper Smelting Company, under the able superintendence of J. R. Grout, Esq., have made arrangements for doing a heavy business this season at their Smelting Works in Detroit. We understand they have secured all this years' yield of copper from the Minnesota, North West, North American, and several other mines, to an amount of some 800 tons, to work into pig metal. This establishment has been in operation over a year, and has turned out the best kind of copper, and we are glad to hear that it is on a tide of such successful operation.—*Lake Superior Journal.*

Pennsylvania.—*Congressional Apportionment.*—By a compromise between the two Houses (the Senate being Whig by *one* majority) a very fair Apportionment Act has been finally passed, giving the Whigs *ten* Districts, the Opposition *thirteen* and leaving *two* doubtful.

The Governor of Md. has appointed James Buchanan and Richard Carmichael as Commissioners to confer with Pennsylvania about the fugitive slave killing case.

Strakosch, the pianist, was married on Saturday last, at New Orleans, to Amalia Patti, the the vocalist. The happy pair have started for New York.

☞ The Whigs of the 4th District of Alabama, in Convention, have appointed a Fillmore delegate to the National Convention at Baltimore.

AN ACT

To exempt school property from taxation.

The people of the State of Wisconsin represented in Senate and Assembly, do enact as follows;

Sec. 1. The fourth subdivision of section four of chapter fifteen of the Revised Statutes, is hereby so amended as to read as follows:

The Fire Annihilator.—This invention was used successfully yesterday morning, in suppressing the fire at the Tract House. Until the machine was let off, the smoke was so dense that the firemen could not enter; the Annihilator, however, soon overcome the difficulty, and the fire was promptly extinguished. The late trial at Newark, also, was so successful that one of the gentlemen who witnessed it, and who signed the certificate of commendation, has purchased the patent for Essex County, N. J.

The company are erecting a building at Jersey city, for experiments, and are determined to leave nothing undone that the public can demand in proof of the great stability claimed for the Fire Annihilator. We shall have more to say on this point in a day or two.—*N. Y. Miror.*

Vacancy for a Doctor.—Dr. Greiner, the Indian agent in N. Mexico, wrote home on the 31st of March, that he knew of an opening for an Enterprising Physician: a vacancy had happened, and he told how: One of the Eutaws on the San Juan River was taken sick, and an Indian doctor from the Rio Verde was called in to attend him. Owing to the strength of the disease, or to the weakness of the prescription of the doctor, the patient died and was buried. After the funeral the doctor was taken by the friends of the deceased, tied up, shot and scalped; his wife's hair was cut off; his house burned, containing all his property—and all his animals killed. This is the law among these Indians, regulating doctors. The vacancy is yet unfilled.—*Cleveland Herald.*

HAWKINS' STAVE DRESSING MACHINE.

PATENTED JULY 22, 1851.

THIS machine is now in successful operation at the shop of Wm. Hawkins in this city, and will dress Staves for

Packing, Flour and Whiskey BARRELS,

and PIPES or HOGSHEADS, at the rate of

600 Whiskey or 800 Flour Barrel Staves PER HOUR,

straight, winding or crooked. In fact, any stave that can be worked by hand will be dressed by this machine, either for light or rough work, from 20 inches to 72 inches in length of any reasonable width, and *to any requisite bilge*, and in the most perfect manner. The stave passes through the machine a single time, is dressed by rotary cutters, and is then ready for the truss hoops. The dressing of the sides and jointing of the edge of the stave is performed perfectly. The machine is made of iron, is strong and durable, and is not difficult to keep in good order for use. Six horse power is sufficient to drive the machine with all the speed necessary.

The Subscribers having purchased of Wm. Hawkins the patent right for the United States are prepared to sell rights for States, Counties, or for running single machines and to furnish and set up the machines, warranted to perform perfectly. In the great saving of expense of transportation of dressed over the rough stave, the rapidity and perfect manner with which it performs its work, consists the value of this machine.

Satisfactory testimonials can be furnished if desired.

Graefenberg Medicines

HAVE YOU USED THEM?

AS popular medicines, prepared carefully and scientifically, and adapted to the wants of the American public, they are unsurpassed. They are unquestionably what they are represented to be, *genuine*, and free from *Humbug*, intended as much to *cure* as to *sell*. When once used, they are really relied upon, and no *Family* should be without them—truly valuable as to *Health*. In many instances the *regular faculty* recommend and use them, such is their force over the prejudices of those so generally opposed to the elevation of science. In *Spasmodic No Family Physician*, in ordinary cases, is needed by those who own the *Graefenberg Manual of Health*, and strictly adhere to the directions in the use of the medicines.

A word to the sick is sufficient, without the special mention of certificates, which we have of the most flattering description always open for the inspection of the incredulous. We have the satisfaction of publishing a few variations of testimonials of this Company, which may be found in every town in the State throughout the Union.

THE GRAEFENBERG SARSAPARILLA, is purely vegetable, *no big bottle humbug*, or pleasant drink, but as *it should be, a Medicine* of the greatest power in promoting an entire change in the system, by eradicating those impurities of the blood which are the seeds of almost incurable disease in man.

THE GRAEFENBERG DYSENTERY SYRUP.—Public approbation has stamped upon it the character of *perfect*. It has selected the confidence of Nature in its last stages, and for bowel complaints it has no equals.

THE GRAEFENBERG VEGETABLE PILLS, are particularly valuable for the prevention and cure of *Fevers* in general. These are gently, naturally and surely, and in connection with our *Health Bitters*, are a certain and speedy cure for the Fever and Ague. The *Bitters* have a wonderful effect in invigorating a debilitated system.

THE GRAEFENBERG GREEN MT. OINTMENT.—In reducing inflamation, healing burns, bruises, and all injuries to the body, we can confidently recommend this salve to the public. In fact, the *Graefenberg Medicines of our* Region of our State its merits are universally appreciated.

THE GRAEFENBERG EYE LOTION.—An unpretending article, but one which meets with large sales in the West, and has been the humble means of relieving thousands from intolerable pain arising from injured or diseased eyes. Try it.

THE GRAEFENBERG UTERINE CATHOLICON.—This is perhaps the most valuable medicine of this Company, inasmuch as it reaches cases despaired of by the most scientific physicians. For Prolapsus Uteri, and all complaints incident to *Females*, it will be found a safe and speedy remedy. Let no *afflicted woman* be deterred by delicacy or prudery from curing it a fair trial. Inquire of the agent for the pamphlet in relation to it.

THE GRAEFENBERG PILL OINTMENT, CHILD'S PANACEA, &c. are all invaluable remedies, differing but little in all the medicines we have touched to each.

PURCHASERS of "Baking Powder" are requested to buy none but those having the written signature of E. H. Durkee upon the wrapper. This article is now widely known, and Hotel keepers having pronounced it the cheapest and best preparation, for the purposes recommended; and having been brought into general use, by families of this City, there are those who are endeavoring to reap the benefits, by palming off upon the public a "Counterfeit article." THE WORLD'S FAIR

PREMIUM SAFES.

DEPOT,

Green Block, Water St.,

(Between Maiden Lane and Wall Street,)

NEW YORK.

THE SUBSCRIBER PLACED HIS FIRE AND BURGLAR-Proof Iron Safe in competition with the whole world at the great Exhibition in London, for which an important jury awarded a medal.

The American Fair, held last fall at Castle Garden, also awarded to him a gold medal for the best Fire-Proof Safe, and he has never failed to obtain the highest premium when his Safe has been put in competition with others for that purpose. Certificates have been received from the following well-known merchants, who have had their books, papers and money preserved in these superior Safes within the last thirty days, (and can, with many others, be seen at my store,) viz. Messrs. Stillwell & Monroe, Jas. Mowatt, and Mr. J. L. Watkins, in the Fulton Street fire; Messrs. Fisher & Robinson, and Messrs. John Lockwood & Co., in the great fire in the corner of Liberty and Nassau Streets, and Messrs. Frost & Bowman, in Jersey City.

I am the proprietor of HALL'S PATENT LOCK, which obtained a medal in the name of Adams & Co. Boston at the World's Exhibition, and is considered the best lock for the price, ever invented, being proof against powder, and the key is no larger than a cent, and can be made a keyguard.

I invite all purchasers to a close and careful investigation before purchasing, and decide for themselves, which is the best Fire, Burglar and Damp-Proof Safe combined.

RICH'S SAFES AGAIN!

EIGHT SAFES of different makers consumed, with their contents! The Safe made by Rich & Co. defied the flames and brought out its contents without a mark of fire upon them!

MR. GILBERT'S LETTER.

THE FIRE IN PITCH'S AND PEARL STS., NEW YORK.

New York, Dec. 20, 1851.

MESSRS. STRONG AND MANN, (successors, to C. Rich & Co., No. 116, Water Street, New York—Sirs, when the fire was consuming my place of Business, No. 216, Pearl Street, I was absent in Rensalaer County, feeding a new cleaning apparatus in connection with my Excelsior Threshers, and did not read the account until I was fearful it was too late to save my books which were placed in one of your safes, purchased from Mr. Herring some years ago. My fears were not allayed when I found it necessary upon my return to apply the Croton Water 40 hours before I was enabled to commence operations; after which, I received 24 hours of labor and application to raise the salamander from its ashy bed. You may judge of my anxiety during this delay, and my agreeable surprise upon opening the safe in the presence of a number of gentlemen, to find my books and papers saved, and as legible as they were previous to the fire. The interior heat to which the Safe was subjected, was the conjecture of the Coroner and another safe, (not a Salamander) of which an iron skeleton frame only remained, and not a vestige of a book. They were communications to the same effect, on the second floor, from which they fell upon crates of earthen ware in the cellar, the rushed safe upon the 3d smashed. If their position had been reversed, not even the skeleton would have remained. My loss over the insurance is $1,000, yet the salvation of my books is your salamander, with the representative of $100,000, and important documents which could not be duplicated, has fully compensated me.

It will afford me great pleasure to exhibit the new safe purchased of you, and explain its merits, at my present office, No. 291 Pearl Street, where I shall remain until the new building, No. 216, is erected.

Yours respectfully, JOSEPH G. GILBERT.

IMPORTANT TO THE PUBLIC!

"PLANING MACHINES.

"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the stationary Knife Planing Machine attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 9th volume of the Repertory of Arts, invented by Samuel Bentham, in the year 1791. A like machine was patented in this country by one Knight, some six teen years since, and another one put up by Albert Richards, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifty or sixty years experimenting upon these machines, not one in use is of any value for the purposes contemplated.

I will furnish a stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and four per cent for my trouble.

JAMES G. WILSON,
May 15, 1849. Philadelphia."

I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before this existed to do much work, and do it as well as mine. In regard to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border st., East Boston, Mass., or at such other place as may be convenient for such a trial.

REMOVAL.

P. W. BADGLEY,

HAS removed to his New Stores, four doors north from his old stand, at Nos. 103 & 105, E. Water-st., where he has on hand a very heavy stock of GROCERIES, and would invite those visiting to purchase goods in his line to give his stock an inspection before purchasing.

It has not only been the aim of the subscriber to sell as low as any other establishment in the West, but to convince purchasers that he cannot will sell as low as Jobbers of Groceries in New York—and why not? The subscriber has been engaged in the Wholesale Grocery business in New York for 6½ years prior to opening in this market. WATER-CURE ESTABLISHMENT,

BRATTLEBORO, VERMONT.

THE Proprietor, DR. R. WISSELHOEFT, begs leave to inform the public, that he has removed from his former residence, and is able again to attend to his professional duties. Former and new patients, therefore, may depend upon his giving the attention to their cases. They will also find comfortable and pleasant accommodations both for themselves and friends, but will please to remember that the establishment is intended for the *cure of diseases by means of water*, and not for a hotel or a fashionable watering place. Being in the lovely nature and quiet summer residence, the house has many attractions besides its Watercure, for Nature has indeed been lavish of her gifts on the romantic hills and valleys of this vicinity.

G. GRÆSSLE'S

PRESSED, FIRE-PROOF TILING.

CERTIFICATES OF RECOMMENDATION.

BY the present, I attest my entire satisfaction with the roof of my house, covered with the pressed, fire-proof Tile, invented by Mr. Græssle; having found them perfectly secure during snow-storms, rains, wind and intense cold. I hereby take occasion to recommend said roof covering to every house-builder, inviting them to satisfy themselves by ocular inspection of the excellent qualities of the same.

LEMO MEYER,
Druggist, 374 W. Water-st., 2nd ward
Milwaukee, Feb 3, 1852.

The above I found true in every respect, as to the roof of my house, covered with the same tile, invented by Mr. Græssle.

Brewer, Chestnut-st., 2nd ward.

The undersigned, having carefully examined the pressed roofing Tile invented by Mr. Græssle, have found them perfectly answering the purpose intended. Their practical and ingenious construction recommends them as a kind of tile, not only as a fire proof, but perfectly water-proof covering, but above all for its durability. The ridges and channels not only exclude the entering of snow or water, but, by their form and peculiar joining of one into the other, they give to the single Tile as well as to the whole covering an absolutely movable position and an intimate connection. Besides this, Mr. Græssle's method of burning the Tiles, deprives them of the injurious tendency to absorb water, making them in this way durable; and joining to the above another virtue, viz. that of dispensing with mortar. I, therefore, consider myself justified to declare fully satisfied in recommending to the building community the above roofing Tile as an excellent and valuable material.

SCHWAB & SCHWEICKHARDT, Architects.
VICTOR SCHULTE, } Builders.

Milwaukee, Feb. 5, 1852.

To G. Græssle.—I have examined the Roofing Tile made by you, and have no hesitation in recommending them to general use, and particularly as a fire-proof roof.

G. W. MYGATT, Architect.
